Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	30 September 2026
Team ID	SWTID-2026-3436
Project Name	AI FitTrack API
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	Registration through Form Registration through Gmail Registration through LinkedIN
FR-2	User Confirmation	Confirmation via Email Confirmation via OTP
FR-3		
FR-4		

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	**Usability**	The API is easy to use and understand. It helps users track fitness activities and view results simply.
NFR-2	**Security**	The API protects user Information and fitness data. Only authorized users can access personal details.
NFR-3	**Reliability**	The API provides accurate and consistent fitness tracking results. It works correctly with minimal errors.
NFR-4	**Performance**	The API processes user requests quickly. It provides fitness information and results with less delay
NFR-5	**Availability**	The API is accessible whenever users need fitness tracking services. It aims to provide continuous service with minimal downtime.
NFR-6	**Scalability**	The API can handle an Increasing number of users and requests. It can support more fitness data as the application grows.
